Endpoint Privilege Management Reporting 24.3 Release Notes

May 2, 2024

Issues Resolved:

- Updated the PMR db.exe installer with OLE DB Driver version 19.3.3 (a patch version that resolves a vulnerability). The OLE DB Driver is not bundled with the .msi installer. Install the patched prerequisite OLE DB Driver if installing the PMR database with the .msi.
- Updated the Event Parser installer with OLE DB Driver version 19.3.3 (a patch version that resolves a vulnerability).
