BeyondTrust Password Safe - ECM Plugin 19.2.1 Release Notes

May 28, 2019

New Features and Enhancements:

- Added support for the retrieval and injection of SSH keys for Shell Jump Items.
- Enhanced the Test Settings functionality by allowing the user to more closely simulate requests that would come to the ECM from actual Jump Items.

Issues Resolved:

- Resolved an issue that prevented the plugin from finding credentials where the Asset in Password Safe had the IP address as the Asset Name.
