iOS Customer Client 2.2.13 Release Notes

March 26, 2019

New Features and Enhancements:

- Screen sharing performance has been improved.

Issues Resolved:

- Resolved an issue where starting a session from a URL would sometimes fail.
- Resolved an issue where an error message was not displayed when attempting to start a session more than once from the same page.
- Resolved an issue with screen sharing showing only a black screen after rotating the device.
- Resolved an issue with SSL validation on some appliance types.

Requirements:

The BeyondTrust iOS Customer Client works with:

- iPhones and iPads running iOS 11 or greater.
- Existing BeyondTrust Remote Support installations, version 17.1.1 or greater.
- Support sites with a trusted CA-signed certificate on the appliance.

Notes:

- The BeyondTrust iOS Customer Client is available for download in the App Store.
