

Privilege Management for Unix and Linux 23.1

Supported Platforms

This is a list of operating systems on which the current version of Privilege Management for Unix and Linux is maintained and receives full support. BeyondTrust provides updates to supported versions as needed to resolve issues with functionality and enhancements.

The following lists identify which releases of Privilege Management for Unix and Linux are available on which UNIX and Linux operating systems. File names are structured as **<Release identifier>.tar.Z** where the **<Release identifier>** is **pmul_<OS flavor>-<release number>**.

Note: We recommend before any clients are upgraded to the latest release of Privilege Management for Unix and Linux, the license, policy, and log servers be upgraded to the latest release.

For more information about the latest release, please see the [Privilege Management for Unix and Linux Release Notes](https://www.beyondtrust.com/docs/release-notes/privilege-management/index.htm), at <https://www.beyondtrust.com/docs/release-notes/privilege-management/index.htm>.

UNIX Systems

UNIX Version	Release Identifier (Architecture-Rel No)	Certified Date
HP-UX 11i v3 (B.11.31) (ITANIUM)	pmul_hpux.ia64_23.1.0-12	06/30/23
IBM AIX v7.2 TL5 (POWER 64-bit)	pmul_aix_23.1.0-12	06/30/23
IBM AIX v7.3 any TL (POWER 64-bit)	pmul_aix_23.1.0-12	06/30/23
