

# Identity Security Insights 23.12.1 Release Notes

December 14, 2023

## New Features and Enhancements:

- The Roles and Permissions tabs on the Identity Details page have been consolidated into a single Entitlements grid. Roles, permissions, and other entitlements can be identified using the new Category column.
- Users are now instructed how to limit IP addresses to only the Insights IP addresses when configuring a Privileged Remote Access or Remote Support connector.

## Known Issues:

None.

## Notes:

None.
