

# Privilege Management Cloud Splunk Data Ingestion App 23.1.1 Release Notes

May 11, 2023

## Key Features

- The initial release is a data ingestion app only. A dashboard component will be available in a future release.
- The app ingests audit events that occur in the PM Cloud portal and EPM client events that occur on the managed endpoints.

## Notes:

- PM Cloud 23.1 or later is required.
- Certified against Splunk Enterprise 9.0.
