

Remote Support SIEM Tool Plugin 23.1.1 Release Notes

September 28, 2023

Key Features:

- Added support for transmission of events over TLS Syslog.

Issues Resolved:

- Addressed an issue which prevented proper parsing of IPv6 addresses from session data.

Notes:

- Supports upgrades from any prior release.
- Requires BeyondTrust Middleware Engine v2.4.2.

Checksums:

Middleware Engine + Plugin Package	SHA256 Sum
