

# PowerBroker for Windows 7.9.1.12 Release Notes

February 9, 2023

## New Features and Enhancements:

- Microsoft Windows 10 22H2 is now supported.
- Microsoft Windows 11 22H2 is now supported.

## Issues Resolved:

- Resolved issue in which discovery scan data was not being sent to BeyondInsight, while other event types were.
- Resolved issue in which **taskkill** path rule was not working with short names.
- Resolved issue in which upgrade left some files from previous install.
