

Privilege Management for Mac 21.7 Release Notes

December 14, 2021

New Features and Enhancements:

- Updated BeyondTrust brand icons to align with new design.
- Added the ability to update policies from Privilege Management Cloud via the Privilege Management for Mac menu bar icon.
- Mac products run natively on Apple Silicon devices without the need for Rosetta 2 to be installed.

Issues Resolved:

- Rapid Deployment Tool (RDT) layout has been updated to align with Monterey.
- Resolved border alignment and home button sizing issue for Big Sur.
- Minor change to the Mac Quick start policy for the Jamf command **removeFramework**.
- Resolved issue in which confirmation buttons on Monterey did not have the correct styling.
- Resolved scenario which could cause multiple instances of **_avectodaemon** user and group to be present on an endpoint.
- Resolved issue in which a space after a full stop was not honored in our dialog text.

Compatibility:

- Privilege Management Policy Editor 21.7
- Privilege Management ePO Extension 21.2
- Privilege Management Cloud Adapter 21.7
- BeyondInsight Adapter 21.7

Note: *If you have a business requirement to downgrade the Mac client, please first uninstall the currently installed version.*

Supported Operating Systems:

- macOS 12.0 Monterey
- macOS 11 Big Sur
- macOS 10.15 Catalina
