

Privileged Identity – ECM Plugin 18.2.1.117 Release Notes

July 3, 2018

New Features and Enhancements:

This release of the plugin for integration with Privileged Identity includes support for new features in Privileged Access and requires a new version of the ECM.

- Added support for new features in Privileged Access that allow injection of credentials into application launcher sessions.

Notes:

- **RED IM has been renamed to Privileged Identity.**
- The Privileged Identity – ECM Plugin is compatible with:
 - Privileged Access 18.2.1
- Requires Endpoint Credential Manager 1.2.3.1090 or higher.
