Privileged Identity 5.5.4.3 Release Notes

May 21, 2019

Issues Resolved:

- Resolved an issue with Zone Processor installation not setting an error handling value correctly, which could require the system to reboot if errors were detected.
- Resolved an issue with editing the DAM list policy.
- Resolved an issue with an error sometimes being displayed after opening the Job Systems page in the Web App.
- Resolved an issue with the DAM LocalPasswordClient version not being updated.
- Resolved an issue with the DAM client using the Default List Policy instead of a Custom List Policy.
- Resolved an issue with the DAM client showing the wrong time for "Next Secret Update" and "Next Password Update".

Notes:

- Supports upgrades from 5.5.3.0+.
- Supports the BeyondTrust PI ECM Plugin 18.4.1.
