Android Access Console 2.2.7 Release Notes

June 10, 2019

Issues Resolved:

- Fixed an issue with having to double tap to simulate single clicks on the remote session.

Requirements:

The BeyondTrust Android Access Console works with:

- Android devices running 4.3 or greater.
- Existing BeyondTrust Privileged Remote Access installations, version 17.1.1 or greater.
- Support sites with a trusted CA-signed certificate on the appliance.

Notes:

- The Android Access Console is available for download in Google Play.
