iOS Access Console 2.2.$ Release Notes

C¥dĦ¥a VYf˙, , 201)

The Mobile Access Console for iPad/iPhone lets privileged users connect to on- or off-network endpoints securely through your Bomgar Privileged Access Management Appliance, eliminating native RDP, VNC, and other less secure connection methods. Security professionals can also monitor vendors and privileged internal users access to remote endpoints.

- Desktop-quality remote access to endpoints
- Access Windows, Mac, or Linux computers
- No VPN tunneling, port-forwarding, or complex firewall configurations
- Collaborate with other privileged users
- Real time session management from your iPad

Requirements:

The Bomgar iOS Access Console is certified with:

- iPhones and iPads running iOS 6.0 or greater
- Existing Bomgar PAM installations, version 15.2.1 or greater
- Support sites with a trusted CA-signed certificate on the appliance

Notes:

- The Bomgar iOS Access Console is available in the App Store.
