

iOS Access Console 2.2.4 Release Notes

October 9, 2018

New Features and Enhancements:

- When available, Jump Item name now shows instead of computer name in the Jump Item list. Also, computer name has been added to the Jump Item details.

Issues Resolved:

- Resolved an issue with the URL sometimes displaying incorrectly when performing a Web Jump.
- Resolved an issue with the iOS Access Console sometimes stopping unexpectedly when selecting the credential store.

Requirements:

- Runs on iPhones and iPads running iOS 8.2+.
- Compatible with PAM 17.1.1+.
- A trusted CA-signed certificate must be installed on the appliance.

Notes:

- The Bomgar iOS Access Console is available in the [App Store](#).
