

Android Rep Console 2.2.1 Release Notes

June 11, 2013

New Features and Enhancements:

- New scrollable views were added to improve the rep's experience when using Android devices with smaller screens.

Issues Resolved:

- Resolved an issue where tapping "Search" on the Jump Client tab could cause undesired behavior.
- Resolved an issue where generating a Session Key and not specifying a public site could cause undesired behavior.
- Resolved an issue where the Android Rep was not honoring the Ctrl-Alt-Del injection setting from /login.

Requirements:

The Bomgar Android Rep Console works with:

- Android Smartphones and Tablets running Android 2.2+
- Existing Bomgar installations, version 12.1.1 or greater
- Support sites with a trusted CA-signed certificate on the appliance
