

# Android SDK 2.2.12 Release Notes

April 9, 2020

## New Features and Enhancements:

- Imports should be updated for the following package path changes:
  - `com.bomgar.android.backend.SpecialActionHandler` has changed to `com.bomgar.android.sccccommon.SpecialActionHandler`
  - `com.bomgar.android.backend.sysinfo.SysInfoCategories` has changed to `com.bomgar.android.sccccommon.sysinfo.SysInfoCategories`
- Android 10 compatibility update for apps with `targetSdkVersion 29` or higher:
  - **Scoped Storage:** see `storagePermissionRequested()` in `BomgarSessionDelegate` for documentation on required implementation.
  - **Foreground Service Types:** refer to the section on unrestricted screen sharing in the javadoc for required implementation.
  - Updated minimum Android SDK version to 23.
