Integration Client 1.6.0 Release Notes

June 7, 2016

New Features and Enhancements:
- Added support for screen sharing recording events.
- Added support for downloading presentation recordings and data.
- Scheduled events can now be enabled or disabled without having to delete them.

Issues Resolved:
- Resolved an issue with the SQL Server plugin sometimes not syncing exit surveys.

Notes:
- Integration Client 1.6.0 now requires .NET 4.5 in order to support TLS 1.2 and newer ciphers.
- Integration Client 1.6.0 is compatible with:
    - o Bomgar Remote Support versions 14.3.1 and greater on physical and virtual appliances.
    - o Bomgar Remote Support Cloud versions 15.1.1 and greater.
    - o Bomgar Privileged Access Management versions 15.1.1 and greater.
