iOS SDK 2.2.16 Release Notes

June 25, 2019

New Features and Enhancements:

- Updated to fix possible crash when including the SDK and using AVPlayer.

Notes:

- Requires Xcode 10.2+/Swift 5+.
- Since Swift 5.0 is ABI stable this release should work with future releases of Swift/Xcode.

Issues Resolved:

- 18.1.4 - Remote Support - IOS SDK 2.2.14 crashing when streaming video.
